In case of dispute the Dutch text is the only valid copy.

General guidelines concerning the use of the Belgian NtM are described in the annual edition no. 1 of the Belgian Notices to Mariners.

Positions are given in the reference system World Geodetic System 84 (WGS84). Incorrect interpretation of the reference system can lead to errors in the position of several hundred of metres.

Depths (in metres): are reduced to Lowest Astronomical Tide (LAT) for tidal areas and to local dock datum for non-tidal areas.

Heights (in metres): drying heights are above LAT. Vertical clearance is above Mean High Water Spring (MHWS). Other heights are above Mean Sea Level (MSL). Heights for non-tidal areas are above local dock datum.

Directions, bearings, leading lines and light sectors (in degrees) are true reckoned from seawards.

AGENCY
MARITIME and
COASTAL SERVICES

The Coastal Division is ISO9001
and ISO14001 certified (version
2015).

GENERAL NOTICES**2020-17/261 BORDER CONTROL (EXTRA SCHENGEN) PLEASURE NAVIGATION - CORRECTION OF NTM 2020-01/075**

Replace the annex 1 of the NtM 2020-01/075 by the table in attachment.
